

Nguyen Viet Thuan

About Me

23 years old

I am a person who is always searching for, learning new things and creating innovative products to promote my own development. I am not an easier give up person, if I had any problems I can stay on my computer and searching, thinking and try to figure it out.

Software Engineering - Information System @ [FPT University Da Nang](#)

Idea : Recognize Face Application to make class attendance
Using Python to recognize, ReactJS to making an website

Side Activity

- FU Dever Club - Academic Club of FPT University
Used to be The Board of Directing

Interest

When not working, I love to watch movies and read books. As a matter of fact, I'm a big fan of Game of Thrones (both the book and the movie). Besides that I also love soccer. I also like playing games (Path Of Exile, Albion Online, etc), watching soccer, and cheering for my favorite Manchester United F.C.
